July 1972-June 1973- $122.87 per month

July 1973-$130.24 per month

August 1973- $132.40 per month

September 1973- June 1974- $132.51 per month

July 1974- $145.00 per month

Note
This data is based off of last years monthly benefit and a deflation calculator on the BLS website. I deflated last year monthly benefit of $942.00 per month and subtracted the Medicare monthly premium amounts from the CMS FOIA letter. They did however mentioned the economic stabilization program, for the reason of increase in monthly premiums between July 1973- August 1973. My goal out of this is to see what other areas of my life was this economic stabilization program affecting at this time.

Note
Based off congress.gov , there was a bill that was introduced in Congress to extend the Economic Stabilization Act of 1970, to the end of 1975. It shows as introduced as of March 19,1974, but hasn't moved in status since then.
